

Candia Conservation News

A publication of the Candia Conservation Commission (CCC)
Helping to Preserve Candia's Natural Resources

Dennis Lewis Town Forest

The Candia Conservation Commission recently renamed the New Boston Road Town Forest in honor of Dennis Lewis, CCC member and Town Road Agent, who passed on in 2021. Dennis loved the forests, nature and this town. It is a fitting tribute to his dedication and commitment to Candia.

This land was recently surveyed and flagged. Look for guided walks in the future!

The Bridge!

Thanks to the volunteer efforts of CCC members, and a generous donation from Lowes in Epping, we were finally able to construct a bridge over the stream in the Lewis Town Forest to connect both sides of this waterway. In a recent rain storm and flooding, it held up impressively!

Randy Bruno 2021 CCC Barry Conservation Camp Scholarship Winner

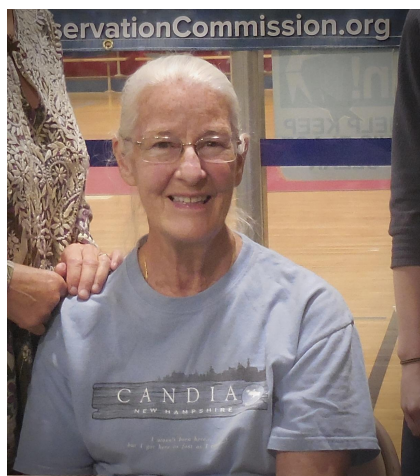

Each year, through the sales of our CCC Calendar, we fund scholarships to send a Candia student - ages 10-16 - to Barry Conservation Camp, sponsored through NH Fish and Game - in partnership with 4-H and through UNH Cooperative

Extension. Deadline for each year is the first week in January.

Betsy Kruse - Retiring from the Commission

This spring, after 27 years of dedication, CCC member Betsy Kruse has stepped down from the commission. Her extensive knowledge of the importance of wetlands, conservation easements, and appreciation for the wonder and priceless gifts of nature will be truly missed. Her editing skills on the newsletter, minutes and all written reports were always welcomed.

We are currently in need of a regular CCC member and alternates. If you'd like to volunteer your skills and passion

for wildlife, please contact us. See our website for extensive information and details. Whatever you enjoy doing - leading nature walks, trail maintenance, establishing pollinator gardens and more - we would love to have you join us!
